EDUCATION

Boise State University - Boise, ID

Bachelor of *Computer Science:* **January 2018 - May 2020**

GPA 3.8

Columbia College Chicago - Chicago, IL

Bachelor of *Liberal Arts:* **September 2007 - May 2009**

GPA 4.0

PROJECTS

MineWalker— *CS 121 Final Project*

I created a game to traverse through a randomly generated maze and avoid the hidden mines on the field via GUI. The game is interactive with the user allowing them to choose the difficulty level and size of gird.

Circuit Tracer — *CS 221 Final Project*

This program implemented a search algorithm from reading a file in, parsing it and then traversing through the content using either a stack or queue data structure. A board was constructed of 2D array characters to find the best path from the start to finish.

EXPERIENCE

CWI - College of Western Idaho, Boise ID — *Math Tutor*

June 2017 - Present

Warm, friendly demeanor while helping students in the lab with any questions or concerns they have. Help students learn, review and explain how to solve problems.

Deep Roots, Keene, NH — *Guest Services*

November 2015 - January 2017

Uphold a peaceful, fun environment while assisting guests and tending to company needs.

SCW Fitness Education, Chicago IL — *Customer Service Manager, Event Coordinator, Cinematographer*

June 2013 - January 2015

Going above and beyond to meet my company's requirements as well as our customers.
